HOD 2018 e-Voting instructions

As a delegate, you will receive an email from Election Buddy, a text message, or both. You only need to choose one method to connect and vote through.

**Text Message**

You will need to touch the link in the text message above the “Sent by electionbuddy.com”. Make sure you do not click on the “electionbuddy.com” link or else it will just take you to the website and not to your personalized voting page.

If you receive a new window like the one below, press the “Connect” button to continue to the website.

After pressing Connect, it will take you to the HOD election site where you will be able to complete your voting following the onscreen instructions.

**Email Message**

If you choose to connect to e-Voting by the email sent to you, please click on the link at the bottom of the email and continue with the voting process.
